Late Pick-up Fees

Parents are asked to make arrangements to pick up their child(dren) promptly when their class ends. We do give a 10 minute grace period after all classes so the parents can help meet this goal.

Unfortunately things do happen and for some parents being late is becoming all too often a common practice. Due to this, WEDC, its staff, and volunteers are being placed into a position that we are being required to take care of tardy parents' children beyond the classroom time. In all fairness to our teachers/staff, the individuals staying late to take care of these children do deserve to be paid for their childcare services.

Therefore, WEDC has no choice but to implement a new Late Pick-up Fee policy. Beginning May 1, 2022, parents will still be given our normal 10 minute grace period to pick up their child(ren) from educational programming. After the grace period ends, the parent(s) will be charged a fee of \$1.00 per minute per child and there is no cap. Please note that this late fee is paid to the teacher on duty at the time of pick-up.

Your support of Wings of Eagles Discovery Center helps ensure we are able to provide inspiring and enriching exhibits and educational programs for our community and visitors. We plan to continue expanding and updating our facility to provide the most state-of-the-art education space available and we hope you will enjoy the journey as we move forward.
